

Design In Minutes With AI Studio

AI Studio combines the convenience of AI design with the versatility of CAD to create a simple, cloud-based design suite. Designing a restoration with Studio is easy for anyone, while customization options like margin and adaptation adjustments help create a perfect fit.

When you buy Midas, you'll unlock access to AI Studio and unlimited AI designs for one year (\$1,200 value).

MIDAS

DENTAL 3D PRINTING HAS NEVER BEEN THIS
SMART AND SIMPLE

Meet Midas

The world's first digital restoration press and the simplest and smartest method of 3D printing dental restorations.

Patented Digital Press Stereolithography (DPS)

Midas is an all-new solution for chairside restorations. Digital Press Stereolithography combines the tank, resin, and platform into a single capsule, allowing it to print with materials up to 10x more viscous than conventional 3D printers.

Print a range of restorations in 10 minutes

Combination of applications across all 3 capsules

Validated Materials

Features SprintRay Ceramic Crown, 510(k) Class II cleared for use in 3D printing definitive individual and fixed full single crowns, definitive partial crowns in the front and posterior area, individual and fixed single veneers. Prints single-unit crowns, veneers, inlays, or onlays in less than 10 minutes.

Effortless Fabrication

Just scan, place, and press – it's as simple as that. Experience no-mess handling with fully enclosed resin capsules. Ready to use right out of the box, with no extensive training required.

Scan the capsule using the barcode scanner.

Place the capsule where the computer instructs.

Midas will press up to 3 capsules in 10 minutes.

Remove the build platform – your restoration is ready.
